BY JAMI SHELTON

Alltech Orthotics & Prosthetics is proud to support Wounded Warriors, and one way they do that is by continuing to sponsor the North Texas Wounded Warrior Charity Golf Tournament — now in its third year this year. The event was held Sept. 9 in Southlake.

The tournament's goal is to provide rehabilitative golfing experiences to combat-wounded veterans. Each foursome that competes included a wounded warrior.

The tournament raises money to provide golf clinics, lessons, equipment and playing opportunities to wounded warriors who are either living in North Texas or who are recovering from their injuries in one of North Texas's VA facilities.

"We got involved because we found out about the tournament from one of our patients and thought it would be a good way to show our support for the men and women who defend our freedoms each and every day," said Joel DeLeon, who, with his brother Jory DeLeon, are two of the founders of All Tech O&P Services.

"Sponsoring the Wounded Warriors Golf Tournament is a natural fit for us, because unfortunately, so many of our combat-wounded warriors need prosthetics, but it's so encouraging to see them being active and enjoying themselves."

He said all amputees deal with great challenges in overcoming their limb loss.

"These incredible people aren't just dealing with limb loss; they are thriving. Many are active in volunteer organizations to help other wounded warriors deal with health problems, personal situations, post-traumatic stress disorders. Their limb loss doesn't discourage them from living life to the fullest. It encourages them to help themselves and others."

"Being involved with people like that is an amazing testimony to what we do each day. Helping people regain their independence is more than a job; it's a passion for us!"

Joel's brother Jory agreed. "Our work doesn't stop with providing a prosthesis," Jory said. "We learn from our patients, build friendships and are involved in their lives in many more ways than their prosthetic care."

He said helping these wounded warriors makes he and his brother feel full of compassion and pride.

"We are fortunate to have a couple of great VA hospitals in our area, but all patients, VA patients included, have the right to use the VA or any other prosthetic provider for their prosthetic care."

"Many of our VA Wounded Warrior patients come to us based on referral from another Wounded Warrior or their local physician. Having a local company who cares about them is very important. Most of our prosthetic patients are lifetime patients."
